**Headline:** Pinnacle Solutions, Inc. to Support Black Hawk Electrical Trainer Development

Huntsville, Alabama (May 25, 2011) – Pinnacle Solutions, Inc., a Huntsville based Service-Disabled, Veteran-Owned Small Business, is proud to announce a partnership with Science and Engineering Services (SES) to support the development of the UH-60M Black Hawk Electrical Trainer (BHET-M). Pinnacle will be the primary software developer for this contract.

The BHET-M is a training device that will be used by the United States Army Aviation School (USAALS) for training system familiarization, component identification, servicing, Maintenance Operational Checks (MOCs), Fault Isolation Procedures (FIPs), Remove/Install (R/I), and repair of the UH-60M aircraft in support of Military Occupational Specialty (MOS) 15F10 and 15N10 personnel.

Pinnacle provides engineering, support and training services, training system development and upgrades, as well as a variety of other aviation and engineering-related services to the Department of Defense (DoD), training system contractors, and weapon system OEMs.
