Headline: Pinnacle Solutions, Inc. Awarded ARC-220 Contract

Huntsville, Alabama (February 13, 2012) – Pinnacle Solutions, Inc., a Huntsville based Service-Disabled, Veteran-Owned Small Business, is proud to announce the recent award of a contract to develop a computer-based training package for the AN/ARC-220 High Frequency (HF) Radio, AN/VRC-100 Advanced HF Ground/Vehicular Communications System, KY-100, High Frequency Tracker, and HF Ground Stations. The subcontract's period of performance runs through December 2012.

The AN/ARC-220 is a multifunctional, fully digital signal processing (DSP) high frequency radio intended for airborne applications. It is the standard HF radio for the US Army aviation. The computer based training will provide an interactive tool for students to train in operation, maintenance (AVIM/AVUM), and S-6 (Communications/COMSEC) setup of the AN/ARC-220 HF Radio. The training will include free-play operation of the radio, as well as structured training modules.

Pinnacle provides engineering, support and training services, training system development and upgrades, as well as a variety of other aviation and engineering-related services to the Department of Defense (DoD), training system contractors, and weapon system OEMs.
